

Second

ENERMED Training Workshop

A Mediterranean Energy Overview

27-29 April 2011

With the special participation of Mr. Jean-Marie DAUGER,
Honorary Chairman, OME/ Executive Vice-President, GDF SUEZ

Framework

"Energy in the Mediterranean" (ENERMED) is a training program designed for OME's Member companies. The importance of ENERMED stems from the growing need for a well-informed young generation with energy markets in the Mediterranean Basin.

Objectives

The objective of ENERMED Training Workshop is to give participants new insight on the energy context of the Mediterranean; energy fields, actors, financing, regional cooperation, institutional framework, regional initiatives, risks, energy security, perspectives, energy efficiency and climate change, etc. The Workshop also aims at building a network, setting up a platform for knowledge sharing, and facilitating communication among future energy leaders.

Speakers

Speakers are mainly from OME staff and leaders of Member companies as well as highly distinguished external experts. While OME staff will cover topics pertaining to energy situation and perspectives in the Mediterranean region, external experts would talk about such topics as energy and climate change, energy projects **finance and the European Union's directives and laws** related to energy policy.

Participants

ENERMED Training Workshop is intended for all junior staff of OME Members willing to acquire a general training on energy and to better understand the energy changes in the Mediterranean. ENERMED targets candidates preferably with less than 5 years of experience in their company. In order to promote dialogue and optimize input, the number of participants will be limited to a **maximum of 20 participants**. ENERMED's goal is to have both North and South Members equally represented in the workshop.

PROGRAMME

April 27	14:00 - 17:30
13:30 - 14:00	Welcome of participants - <i>Coffee</i>
	Opening Session
14:00 - 14:30	ENERMED Overview Pedro MORALEDA (General Director, OME)
14:30 - 15:00	Presentation of Participants
15:00 - 16:00	Introduction: Jean-Marie DAUGER (Honorary Chairman, OME/ Executive Vice-President, GDF SUEZ)
16:00 - 16:30	<i>Coffee Break</i>
	Session I
16:30 - 17:30	Energy in the Mediterranean: Situation and Perspectives Lisa GUARRERA (Director of Monitoring & Modelling Division, OME)
20:00	<i>Networking Dinner</i>

April 28

09:00 - 18:00

09:00 - 09:30

Welcome of participants- *Coffee*

Session II: Energy Perspectives in the Mediterranean Per Field

09:30 - 10:30

Oil: Bruno CASTELLANO (Hydrocarbons Senior Analyst, OME)

10:30 - 11:00

Coffee Break

11:00 - 12:00

Natural Gas: Sohbet KARBUZ (Director of Hydrocarbons Division, OME)

12:00 - 14:00

Lunch

14:00 - 15:00

Electricity: Roberto VIGOTTI (Director of Electricity Division, OME)

15:00 - 16:00

Renewable Energy: Robert SOLER (RESDC Chairman, OME/EDF)

16:00 - 16:30

Coffee Break

16:30 - 17:30

Energy Efficiency: Houda Ben JANNET ALLAL (Director of RESD Division, OME)

April 29

08:45 - 15:30

08:45 - 09:00

Welcome of participants - *Coffee*

Session III: Actors

09:00 - 10:00

Energy and climate change stakes after Cancun conference (COP 16):
Marc DARRAS (GDF SUEZ)

10:00 - 11:00

Financing energy projects: **Fabrizio DONINI FERRETTI** (European Investment Bank)

11:00 - 11:30

Coffee Break

11:30 - 12:30

What perspectives for regional cooperation in the field of energy ?
Philippe LOREC (French Ministry of Ecology, Energy & Sustainable Development)

12:30 - 13:30

Role, mechanisms, technologies & forward-looking activities
Domenico ROSSETTI (European Commission)

13:30 - 15:00

Lunch

Workshop Evaluation & Closing

15:00 - 16:00

Round table-evaluation of session and recommendations for future sessions:
Pedro MORALEDA (General Director, OME)
Houda BEN JANNET ALLAL (Director of RESD Division, OME)
