

ENERMED Workshop on

Unconventional Oil & Gas: Recent Developments, Challenges and Opportunities

Paris, 4 May 2016

*Venue: OME Office
32 bis, Boulevard Haussmann
75009 - Paris*

CONTEXT

The exploitation of unconventional oil and gas resources has resulted in a sea change in the field of energy and hence it has become one of the most controversial issues on the global energy agenda. The whole issue of unconventional oil and gas phenomenon has many dimensions but in general differences in perception are key facets of the debate on the way these resources are exploited.

OBJECTIVES

The aim of the OME Workshop is two-fold.

To present global and regional developments on unconventional oil and gas; challenges and opportunities for their development; and their wide-ranging impacts in markets and economies.

To have an interactive discussion with distinguished speakers on the issues covered. This workshop is an opportunity for mutual knowledge and information exchange as well as networking.
