ENERMED

Training Workshop

Session 1

February 2010

9th, 10th and 11th

Venue: OME – 103, rue des Trois Fontanot – 92000 NANTERRE - France

Context...

One of OME's main missions is the promotion of cooperation in the field of energy in the Mediterranean region, in particular between its members.

In general, the training of the executive/managing staff is a key issue for energy companies, in particular in the Southern and Eastern Mediterranean countries, but not only. The energy sector is constantly evolving, and brings out a deficit in terms of training in several fields.

In this context, OME is setting up a **training program** in several steps. The first step consists in setting up a training session on "**Energy in the Mediterranean**" (**ENERMED**) open to the junior staff of OME members companies, in order to lay the bases of the economics of energy, the different energy fields, and to introduce the role of the Mediterranean and the actors who influence energy issues in the region.

Concurrently, an in depth work will be conducted in the coming months to identify the needs for more specific training programs and propose, if deemed appropriate, a more detailed training program alongside **ENERMED**.

OME thereby confirms its ambition to be a privileged venue for meeting and conferring between member companies, a network to share expertise and training on the main aspects of energy in the region.

Objective...

The objective of the ENERMED training program is to give participants new insight on the **new energy context of the Mediterranean** (fields, actors, institutional framework, risks, perspectives, etc.). Basic data on the development of energy fields, the stakes relative to energy efficiency and the issue of climate change will also be broached upon.

Speakers will be alternatively members of the OME team and external consultants.

Each session will be an opportunity for participants to establish contacts with colleagues from other member companies (**a network of OME executives**).

Target Audience...

The ENERMED training program is intended for all junior staff of OME members willing to acquire a general training on energy and to better understand the energy changes in the Mediterranean: actors, financing, regional cooperation, climate change issues, impacts on energy, etc. Candidates will need to have **less than 5 years experience** in their company.

Speakers and working documents...

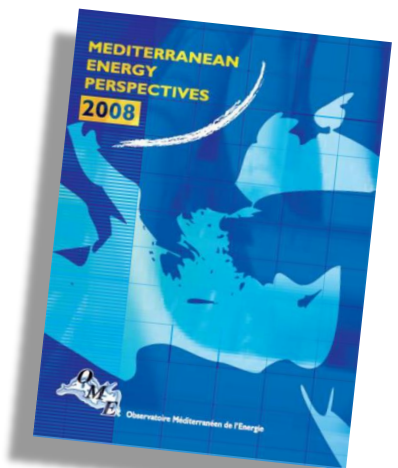

During ENERMED sessions, priority will be given to contacts and exchanges between professional speakers and participants as well as between participants.

In order to promote dialogue and optimize inputs, the number of participants to ENERMED will be limited to a maximum of **20 participants** (excluding speakers). A **balance between members of the South and those of the North** will be maintained.

An **ENERMED binder** containing all lectures will be handled out to participants at the beginning of the session. This teaching support will be completed with different documents and synthetic articles related to the session's topics. A **USB key** containing all documents, as well as a reference document database on energy in the Mediterranean will also be handled out at the end of each session to complete the ENERMED binder. All documents will be available on the **OME website**.

Day 1: 14h00 - 18h00

13.45 - 14.00	Welcome of participants – Coffee
14.00 - 14.15	Opening of the session Welcome of participants Definition of the framework and context of the program: Origin, activity and sequence of events. Pedro MORALEDA, OME
14.15 - 15.00	Presentation of participants
15.00 - 15.30	Presentation of the Observatoire Méditerranéen de l’Energie Pedro MORALEDA, OME
15.30 - 16.30	Introduction: Energy in the Mediterranean, situation and perspectives Lisa GUARRERA, OME General Discussion
16.30 - 16.45	Coffee Break
16.45 - 18.15	The situation per field: Overview and detailed presentation of the situation and perspectives in the Mediterranean Renewable energies, Robert Soler, EDF
18.15	End of the first day
20.00	Diner

Day 2: 09h00 - 18h30

08.45 - 09.00	Welcome of participants – Coffee
09.00 - 12.15	The situation per field: Overview and detailed presentation of the situation and perspectives in the Mediterranean (continuous).
09.00 - 10.30	Oil, Bruno CASTELLANO, OME
10.30 - 10.45	Coffee Break
10.45 - 12.15	Natural gas, Sohbet KARBUZ, OME
12.15 - 14.00	Lunch

14.00 - 16.30	<p>The situation per field: Overview and detailed presentation of the situation and perspectives in the Mediterranean (continuous).</p> <p>14.00 - 15.30 Electricity, Jacques KAPPAUF, OME 15.30 - 16.30 Energy efficiency, a new paradigm for the Mediterranean, Samir ALLAL, UVSQ</p>
16.30 - 16.45	Coffee Break
16.45 - 18.00	Case study of the financing of renewable energy projects, Robert SOLER , EDF
18.00	End of the second day
20.00	Diner Participants present their companies

Day 3: 08h30 - 15h30

08.15 - 08.30	Welcome of participants - Coffee
08.30 - 09.45	<p>The new energy and climate change stakes one month after the Copenhagen Conference (COP 15). Marc Darras, GDF SUEZ</p>
09.45 - 10.45	<p>Financing energy projects. Fabrizio DONINI-FERRETI, European Investment Bank</p>
10.45 - 11.00	Coffee Break
11.00 - 13.30	Actors
11.00 - 12.30	<p>The European Commission: Role, mechanisms, directives and forward-looking activities Domenico ROSSETTI, European Commission</p>
12.30 - 13.30	<p>The Union for the Mediterranean: What perspectives for regional cooperation in the field of energy? Philippe LOREC, Mediterranean Solar Plan</p>
13.30 - 14.30	<p>Lunch - debate: Presentation of a member company and its activities in the Mediterranean region: IBERDROLA, José Gasset Loring, Iberdrola, Spain</p>
14.30 - 15.30	<p>Conclusion of the session: Round table, evaluation of the session and recommendations for future sessions Houda Ben Jannet Allal, OME</p>
15.30	End of the 1st ENERMED session
